

# PostgreSQL

## Source of learning

PostgreSQL Tutorial for Beginners

<https://www.youtube.com/watch?v=SpflwIAYaKk>

3 hour course

by FreeCodeCamp

I have downloaded the data backup inside the courses folder on the mac.

---

## SELECT

Selecting all columns

```
SELECT * FROM table_name
```

Selecting only specific columns

```
SELECT column1_name, column2_name FROM table_name
```

---

## DISTINCT

Get only unique rows which matches the query

```
SELECT DISTINCT column_name FROM table_name;
```

Timelapse in the tutorial
